

Raw & Packing Materials

Consolidated. Compliant. Delivered

One supplier for all your manufacturing inputs.
Zero compromise on quality or timelines.

Welcome To Lykis Limited

Your Single-Window Partner for Raw & Packaging Materials

Lykis is a BSE-listed, 3-star export house built for manufacturers and distributors who are tired of juggling multiple vendors, inconsistent quality, and compliance chaos.

We consolidate Raw Materials and Packaging Materials under one roof - from cosmetic - grade glycerine to food-grade citric acid, from printed laminated rolls to spray pumps, so you can focus on production, not procurement.

Sourcing, quality assurance, regulatory compliance and logistics -we handle it ALL.

5000+ SKUs | 30+ Countries | 40+ Years of Export Excellence

We've supplied manufacturers across GCC, Africa, and Southeast Asia. We understand the certifications you need (USP, food-grade, cosmetic-grade), the specs that matter, and the logistics that don't fail.

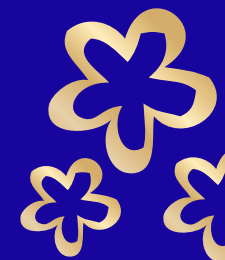

One window. Every export. Everywhere.

Our word is our bond, commitments kept, every time.

Raw Materials

Chemicals & Solvents

Chemicals & Solvents

Extra Neutral Alcohol (ENA) - Available in: Liquid Form

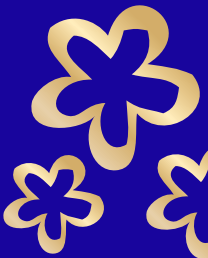

Food-grade, high-purity alcohol for beverage production, pharmaceuticals and industrial solvents.

Over 96% ABV; essential for distilleries, pharma manufacturers and flavor houses.

Raw Materials

Cosmetic & Personal Care

Emollients & Moisturizers

Refined Cocoa Butter - Available in: Solid cubes

Premium food and cosmetic-grade cocoa butter: ideal for chocolate, confectionery, lotions, and lip balms.

Consistent texture and purity; perfect for private label brands targeting premium skin care and gourmet food segments.

Almond Oil - Available in: Liquid Form

Light, easily absorbed emollient for high-end skincare, massage oils, and aroma therapy products.

Natural, non-greasy formulation driver for brands targeting clean beauty and wellness markets.

Glycerine 99.7% USP - Available in: Liquid Form

Pharmaceutical and cosmetic-grade glycerine - a must-have humectant for lotions, soaps, and oral care.

Versatile across formulations; drives moisture retention and product stability in personal care lines.

D-Panthenol 75 W - Available in: Liquid Form

Provitamin B5 for hair care, skincare, and nail care formulations - boosts moisture, shine, and healing.

Essential for premium shampoos, conditioners, and anti-aging creams targeting performance-driven consumers.

Light Liquid Paraffin (LLP) - Available in: Liquid Form

Cosmetic and pharmaceutical-grade emollient and lubricant for lotions, creams, and laxative formulations.

Smooth, non-comedogenic; perfect for sensitive skin and medical-grade personal care products.

White Petroleum Jelly - Available in: Solid Wax Form

Multi-purpose emollient for skin protecting care, lip balms and pharmaceutical ointments.

Consistent quality and purity; ideal for private label health and beauty brands.

Isopropyl Myristate - Available in: Liquid Form

Fast-absorbing emollient and solvent for cosmetics and personal care - improves spreadability and skin feel.

Derived from natural oils; ideal for brands prioritizing clean, plant-based formulations.

Emulsifiers & Stabilizers

Cetostearyl Alcohol (Ginol 1618 TA) - Available in: Solid Granules

Plant-based emulsifier and thickener for creams, lotions, and conditioners - improves texture and stability.

Natural alternative to synthetic emulsifiers; perfect for clean beauty and vegan-certified product lines.

Cetyl Alcohol (Ginol 16-98%) - Available in: Powder Form

High-purity emulsifier and conditioner for hair and skin care products - enhances product consistency.

Ideal for premium formulations requiring stable emulsions and a luxurious skin feel.

SLES 70% - Available in: Solid wax Form

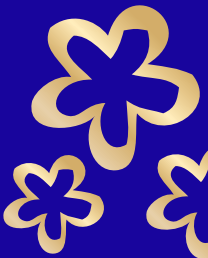

Concentrated surfactant for shampoos, body washes, and detergents - delivers rich foam and deep cleansing

Cost-effective and versatile; easily diluted to match formulation requirements across product lines.

Raw Materials

Food & Beverages

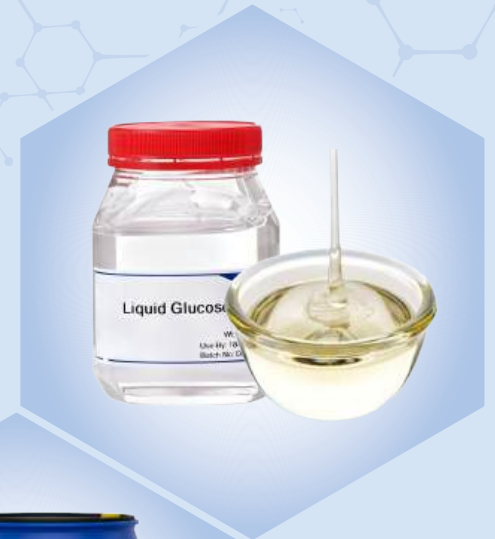

Sweeteners & Texture Modifiers

Liquid Glucose - Available in: Liquid Form

Versatile sweetener and texture enhancer for confectionery, baking and beverage applications.

Derived from corn starch; improves product shelf life and mouth feel in food formulations.

Sorbitol 70% Solution (Non-Crystalline) -

Available in: Liquid Form

Non-crystallizing sorbitol solution for confectionery, pharmaceuticals and personal care - prevents sugar bloom and texture issues.

Ideal for manufacturers requiring stable, long-shelf-life formulations in humid climates.

Food Ingredients & Additives

Cocoa Powder - Available in: Powder Form

Natural cocoa powder for bakery, confectionery, and beverage applications - rich flavor and color.

Ideal for food manufacturers and private label brands targeting chocolate-based product lines.

Corn Starch - Available in: Powder Form

Food-grade thickener and stabilizer for sauces, soups, baking and confectionery.

Versatile and cost-effective; essential for food processing plants requiring consistent texture control.

Soya Lecithin - Available in: Liquid or Powder Form

Natural emulsifier for chocolate, baked goods, and nutritional supplements - improves texture and shelf life.

Plant-based and non-GMO options available; ideal for clean-label and vegan-certified product lines.

Leavening & pH Agents (Powders)

Citric Acid - Available in: Powder Form

Food-grade acidulent and preservative for beverages, confectionery and cleaning products.

Essential for flavor balance, pH control, and shelf-life extension in processed foods.

Sodium Bicarbonate - Available in: Powder Form

Multi-purpose leavening agent for baking, antacid formulations and industrial cleaning.

Consistent granulation and purity; perfect for food manufacturers and pharmaceutical brands.

Ammonium Bicarbonate - Available in: Powder Form

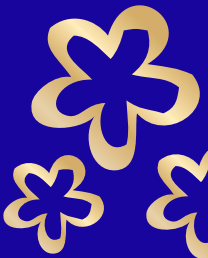

Leavening agent for flat-baked goods like cookies and crackers - delivers crisp texture without residue.

Ideal for industrial bakeries targeting large - scale production with consistent quality.

Raw Materials

Industrial & Chemical

Surfactants & Cleaning Agents

LABSA 90% & 96% - Available in: Wax Form

High-performance surfactant for detergents, dishwashing liquids and industrial cleaners.

Cost-effective foaming and grease-removal agent; essential for cleaning product manufacturers.

Pine Oil 90% - Available in: Liquid Form

Natural disinfectant and fragrance component for household cleaners, detergents and industrial applications.

Eco-friendly alternative to synthetic fragrances; ideal for green cleaning product lines.

Caustic Soda Flakes - Available in: Solid Flakes Form

Industrial-grade alkali for soap production, water treatment and chemical manufacturing

High purity and consistency; essential for manufacturers requiring reliable pH adjustment and saponification.

Caustic Soda Pearls - Available in: Solid Pearl Form

High-purity alkali pearls for soap production, water treatment, and chemical synthesis - easier to handle than flakes.

Consistent dissolution and lower dust; ideal for manufacturers prioritizing workplace safety and operational efficiency.

Sodium Lauryl Ether Sulphate (SLES) -

Available in: Liquid or Paste Form

High-foaming surfactant for shampoos, body washes, and detergents - delivers deep cleansing and rich lather.

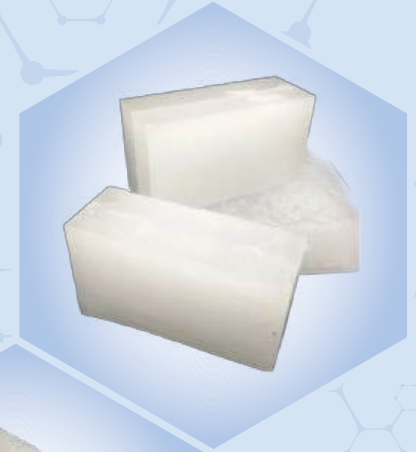

Cost-effective and versatile; essential for personal care and household cleaning product manufacturers.

Waxes & Lubricants

Hard Paraffin Wax - Available in: Solid form

High-melting-point wax for candles, coatings and packaging applications
Consistent molecular weight; ideal for manufacturers requiring stable, uniform wax products.

Stearic Acid - Available in: Solid Flakes or Powder Form

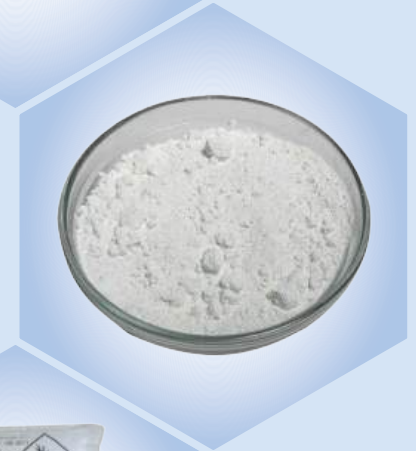

Fatty acid for cosmetics, candles, plastics and rubber processing - acts as an emulsifier, hardener, and lubricant.
Consistent quality and purity; ideal for multi-industry manufacturers requiring stable formulation performance.

Pigments & Coatings

Titanium Dioxide - Available in: Powder Form

High-opacity white pigment for paints, coatings, plastics and cosmetics - delivers brightness and UV protection.
Essential for manufacturers requiring superior covering power and color consistency across product lines.

Hydroquinone - Available in: Powder Form

Industrial-grade chemical for photographic development, rubber antioxidants and cosmetic formulations.
Requires careful handling; ideal for specialized manufacturers with established regulatory compliance frameworks.

Thickeners & Stabilizers

Methyl Hydroxy Ethyl Cellulose (MHEC) - Available in: Powder form

Water-soluble thickener for construction materials, paints, adhesives and personal care products.

Improves viscosity and workability; essential for manufacturers optimizing product texture and application ease.

Precipitated Silica - Available in: Powder Form

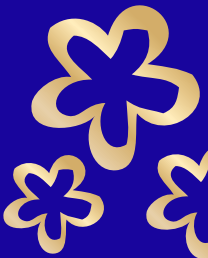

High-performance additive for rubber, plastics, coatings and toothpaste - enhances strength, absorbency and texture.

Improves product durability and performance; ideal for tire manufacturers and oral care brands.

Raw Materials

Construction & Agriculture

Mineral Fillers & Additives

Calcium Carbonate - Available in: Powder Form

Industrial-grade filler for construction, plastics, paints and paper manufacturing.

Cost-effective and abundant; improves product strength, opacity and surface finish.

Raw Talc - Available in: Powder Form

Multi-industry filler and lubricant for plastics, ceramics, paints and personal care products.

Improves product flow, reduces friction and enhances texture across diverse applications.

Ammonium Sulphate - Available in: Solid Granule Form

Nitrogen and sulfur fertilizer for agriculture; also used in water treatment and chemical synthesis.

High solubility and nutrient bioavailability; ideal for large-scale agricultural and industrial buyers.

Construction Chemicals

Wall Putty - Available in: Powder Form

Ready-to-mix wall putty for interior and exterior surfaces - provides a smooth finish and crack resistance.

Essential for construction distributors and paint retailers offering complete wall finishing solutions.

Urea - Available in: Solid Granule Form

Nitrogen-rich fertilizer for agriculture; also used in adhesives, resins and chemical synthesis.

High nutrient content and solubility; ideal for agricultural distributors and industrial chemical buyers.

Polymers Components

Pet Resin - Available in: Solid Granule Form

High-transparency, recyclable polymer for bottles, packaging and textile applications.

Ideal for beverage brands and packaging manufacturers prioritizing sustainability and strength.

Pet Resin (Colours) - Available in: Solid Granule Form

Pre-colored PET resin for blow-molding bottles and containers - eliminates the need for post-production coloring.

Ideal for beverage and personal care brands seeking consistent color uniformity and faster production cycles.

Nylon Rope - Available in: Coiled Form

Durable, high-tensile nylon rope for industrial packaging, construction and logistics applications.

Weather-resistant and abrasion-proof; essential for heavy-duty bundling and load securing.

Packaging Materials

Flexible Packaging

Printed Laminated Roll - Available in: Roll form

Custom-printed flexible packaging for snacks, biscuits and sachets - vibrant graphics, strong seals.

Ideal for food brands seeking shelf impact and moisture / oxygen barrier protection.

Printed Label - Available in: Roll & Pcs form

High-quality adhesive labels for bottles, jars and cartons - vivid colors, durable finishes.

Perfect for private label brands requiring cost-effective, scalable labeling solutions.

ABL Laminated Web For Tube - Available in: Roll form

High-barrier laminate for collapsible tubes - protects contents and enables vibrant branding.

Perfect for toothpaste, creams, and cosmetics requiring shelf stability and visual appeal.

Packaging Materials

Rigid Packaging

Printed Corrugated Box

Sturdy, custom-printed shipping and retail boxes - optimized for branding and logistics.

Essential for e-commerce and distribution-ready packaging that protects and promotes simultaneously.

Printed BOPP Tape - Available in: Roll form

Branded adhesive tape for carton sealing - turns every shipment into a marketing touch point.

Cost-effective brand visibility during transit; ideal for growing brands scaling distribution.

Glass Bottle

Premium clear and colored glass bottles for beverages, oils, and cosmetics - timeless, recyclable.

Ideal for brands targeting premium positioning and eco-conscious consumers.

Printed Glass Bottle

Custom-printed glass bottles with permanent, high-quality graphics - elevate product presentation.

Perfect for spirits, craft beverages and luxury skincare brands seeking shelf differentiation.

Printed Mono Carton

Eye-catching folding cartons for retail display - optimized for product protection and branding.

Perfect for cosmetics, food and pharma brands requiring premium shelf presence.

Polymers & Packaging Components

Bellar Bags with D-Cut - Available in: Various Sizes

Lightweight, cost-effective carry bags for retail, grocery and packaging applications.

Ideal for distributors supplying high-volume FMCG and retail outlets requiring economical bagging solutions.

Plastic Buckets (Golden & White) - Available in: Various Capacities

Food-grade and industrial plastic buckets for paints, chemicals, food storage and household use.

Durable, stackable and customizable; ideal for private label brands and industrial distributors.

Tin (Containers) - Available in: Various Sizes

Metal tins for paints, oils, lubricants and food products - corrosion-resistant and tamper-proof.

Long shelf life and premium finish; perfect for industrial and retail applications requiring robust containment.

Packaging Materials

Closures & Dispensing

Printed ROPP Cap

Tamper-evident, pilfer-proof caps for glass bottles - combine security with brand customization.

Essential for beverages and pharmaceuticals requiring regulatory compliance and consumer trust.

Printed PP Screw Cap

Durable, leak-proof screw caps for bottles and jars - available in custom colors and prints.

Versatile across food, beverage, and personal care categories; ideal for private label lines.

Spray & Foam Pump

Reliable dispensing mechanisms for personal care, cleaning and cosmetic products.

Durable, leak-proof, and customizable; ideal for brands scaling liquid product lines.

Pet Preform

High-clarity preforms for blow-molding PET bottles - consistent quality, scalable production.

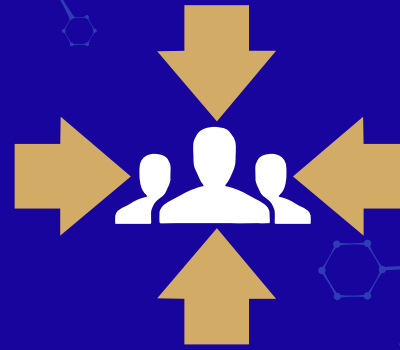

Essential for beverage and personal care brands manufacturing their own bottle lines.

Why Lykis?

The Consolidation Advantage

- Stop managing 10 suppliers. Work with one.
- Single invoice, single shipment, single point of contact.

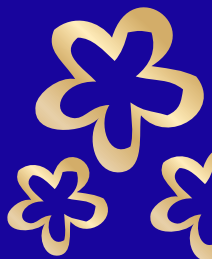

Operational Reliability

- 40+ years in export operations
- BSE-listed, 3 Star Export House

Real Partnership, Not Transactional

- Support from Team
- Proactive problem-solving

One window. Any material. Anywhere
